Work Experience

Computer Science & Web Development Tutor	09/2022 - Current
Weber State University	Ogden, Utah

- Provided one-on-one tutoring for undergraduate students in web development courses, including HTML, CSS, SCSS, JavaScript, and related frameworks and libraries such as VueJS, Bootstrap, Webpack, and Vite.
- Provide one-on-one tutoring to undergraduate students in various computer science courses, including programming fundamentals, data structures, algorithms, and database management.
- Helped students develop skills in web design and development, including responsive design, cross-browser compatibility, accessibility, and web performance optimization.
- Utilized various resources and tools, such as online tutorials, code editors, and debugging tools, to support student learning and development.
- Develop and deliver tutoring sessions tailored to meet the individual needs of each student, utilizing various teaching methods and techniques to promote comprehension and skill development.
- Maintain accurate records of tutoring sessions, including student progress and areas of improvement, and provide feedback to instructors to inform course planning and adjustments.
- Participate in ongoing professional development activities, including training on new technologies, teaching methodologies, and best practices for working with diverse student populations.
- Collaborate with course instructors to stay current on course objectives, assignments, and exams, and to increase exposure to the tutoring center with in-class visits. .
- Consistently receive positive feedback from students and colleagues for my ability to explain complex concepts in a clear and concise manner, my patience and empathy in working with students, and my dedication to helping students succeed.

Equipment Operator	02/2021 - 11/2021
Compass Minerals	Ogden, Utah

- Successfully trained on diverse pieces of equipment and useful attachments to handle team needs, including forklifts, hand trucks, scissor lifts, and other heavy machinery.
- Effectively communicated with ground team members and fellow operators to prevent safety hazards and ensure the smooth and efficient movement of materials around work

sites.

- Consistently operated heavy equipment with care and precision to meet project demands and keep teams on tight schedules.
- Maintained fueled and fully operational equipment to jump on project requirements and keep teams on tight schedules.
- Maintained fueled and fully operational equipment to jump on project requirements and minimize downtime.
- Adhered to OSHA and company heavy equipment safety and operation protocols, resulting in no complaints or incidents.
- Proactively identified and reported potential equipment malfunctions or maintenance needs to ensure safe and reliable operation.
- Contributed to a positive team environment through collaboration, problem-solving, and a strong work ethic.
- Consistently received positive feedback from supervisors for my attention to detail, focus on safety, and commitment to meeting project goals.

Forklift Operator

12/2016 - 04/2020

Family Dollar DC

St George, Utah

- Safely and efficiently unloaded materials and goods at designated locations, ensuring availability for production and timely shipping.
- Transported goods between warehouse locations according to shipment and storage needs, utilizing precision and attention to detail.
- Maneuvered forklift safely in congested and confined areas, taking into account surroundings and other personnel.
- Coordinated with other lift truck drivers and production personnel to process orders efficiently, contributing to a streamlined and effective workflow.
- Trained new operators on safe and efficient operation of forklifts, including proper use of controls, inspection and maintenance tasks, and adherence to safety protocols.
- Communicated with floor managers to determine merchandise placement, ensuring maximum efficiency in storage and retrieval.
- Conducted regular inspections of equipment for defects, and performed necessary repairs and maintenance tasks to keep equipment in optimal condition.
- Verified functionality of forklifts through performance of preventive maintenance and effective troubleshooting of malfunctions, reducing downtime and minimizing disruptions to operations.
- Received positive feedback from supervisors for my reliability, attention to detail, and dedication to ensuring the smooth and efficient operation of warehouse logistics.

Skills

- Proficient in web development technologies such as HTML, CSS, SCSS, JavaScript, and various frameworks and libraries like VueJS, Bootstrap, Webpack, and Vite.
- Experienced in user experience design and optimization for responsive design, cross-browser compatibility, and accessibility.
- Skilled in tutoring and mentoring undergraduate students in various computer science courses, including programming fundamentals, data structures, algorithms, and database management.
- Strong ability to utilize online tutorials, code editors, and debugging tools to support student learning and development.
- Excellent communication and collaboration skills with team members, instructors, and students.
- Proficient in using Adobe Creative Suite to create and design web prototypes, including Photoshop, Illustrator, and XD, to ensure the best user experience and visual design for web development projects.
